JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Wednesday - 10 June 1970

25X1 1. [] Accompanied Agency officers involved who briefed Senator Milton R. Young (R., N. Dak.) and William Woodruff, Counsel, Senate Appropriations Committee, on a sensitive project.

I briefed Mr. Woodruff on Soviet interceptor squadrons in Egypt and increase in infiltration activity in Vietnam.

25X1 2. [] Marshall Lancaster, on the staff of Representative Nick Galifianakis (D., N. C.), called concerning a Tass radio broadcast item which we had left with their office earlier. In it was commentary on the Galifianakis resolution calling for termination of the war in Southeast Asia. Lancaster expressed concern that the Congressman's political opponent could take political advantage of this, and asked about the distribution of the item. After checking with FBIS I advised Lancaster that the item was included in the Soviet Union Area Book. He said they are considering issuing a statement clarifying the Congressman's position which was erroneously reported by Tass.

25X1 3. [] David Martin, on the staff of Senator Thomas Dodd (D., Conn.), called and asked if we could provide him with a list of 11 members of the Political Bureau in Hanoi and the names of the Hanoi delegates in Paris, indicating in the latter list those who we know understand English. I told Martin I would look into this.

Martin asked if there was any word on the [] he had 25X1 discussed with me. I told him I had discussed it with appropriate people here, but had no response as yet.

25X1 4. [] Bill Woodruff, Counsel, Senate Appropriations Committee, told me yesterday that Senator Gordon Allott had asked whether the MIG-21s in Egypt represented an "offensive" capability against Israel-- i. e. whether they were configured, or could be readily converted, for "strategic" missions against targets in Israel. Woodruff said Allott also wanted to know whether the Israeli F-4s could be used for bombing targets in Egypt. I said we would look into this and report.
